Make farm equipment look like new with Speed Detailing

ATTENTION TO DETAIL: Speed Detailing business owner Lyndon Walker knows the importance of looking after your machinery and the value of presentation.

BEFORE: Lyndon was presented with the challenge of transforming and restoring this severely sun faded CASE IH Tractor using the Speed Detailing method.

AFTER: Through hard work and considerable elbow grease, Lyndon was able to bring the tractor back to life to the point where it looks brand new again.

WHEN it comes to restoring farm machinery and restoring hard working equipment back to life to look new again, Lyndon Walker's passion and unwavering attention to detail is second to none.

A skilled and passionate tradesman with many years of experience Lyndon knows the importance of looking after your machinery and the value of presentation.

It's for this reason that Lyndon started Speed Detailing to provide the agricultural, mining and earthmoving sectors with a service to restore their machinery to look like it has just arrived fresh from the showroom.

Lyndon's attention to detail transforms and restores sun faded surfaces to the point where you'll think you're looking at a brand new piece of machinery fresh off the showroom floor, once he has completed his work.

Speed Detailing has set such high standards that Lyndon is now receiving calls to take on jobs for clients throughout Australia and internationally.

— MATT SHERRINGTON

Adding value to your vehicle

EVERY detailing job Speed Detailing carries out is different and requires a unique process and application to achieve the perfect result.

"Speed Detailing specialises in every facet of detailing imaginable including interior, exterior, and undercarriages through to aluminum polishing. The interiors of hard working cabins are fully cleaned using the Speed Detailing method to smell like a brand new vehicle," Lyndon said.

"There is no task too big

or too small for me to cope with, any job that involves tracks, wheels or wings I can handle," he said.

So why restore your vehicle? It's not just the personal pleasure of having that shiny "new" tractor.

"Presentation is the key to the sale of any item.

"70 per cent of agricultural machinery needs to be rejuvenated not just repainted.

"If you're considering selling, trading in or getting an insurance appraisal for your equipment Speed Detailing

I specialise in every facet of detailing imaginable including interior, exterior and undercarriages through to aluminum polishing. The interiors of cabins are fully cleaned using the Speed Detailing method to smell like a brand new vehicle.

Speed Detailing business owner Lyndon Walker.

can add thousands of dollars to the value of your vehicle.

"By increasing the value of your property, I can possibly help make you more money than what you initially thought you'd receive when selling your equipment by providing a service many consider to be an art form."

Lyndon at Speed Detailing has the passion, expertise, and workmanship to take on the largest of jobs. To date he has added tens of thousands of dollars in value to over 50 clearing sales through

Queensland, New South Wales and South Australia.

"The best news is that I come to you, and I don't charge for travel to and from your location."

Speed Detailing is happy to supply an obligation free quote to restore your equipment to new.

For more information on how the Speed Detailing can restore your equipment and/or make you money contact Lyndon on 0457 287 192, all day, everyday. Call now to get things moving.
